Hi Nightma14, hi Creed3020,

sorry, but I cannot help you there. I downloaded the FDS from the original Westwood Renegade website about 1 or 2 years ago, I don't really remember when. It had to do with Westwood Online being offline for a couple of days, so I thought I better grab what I can, just to make sure. When I recently read in the forum that this FDS actually needs a license key and it can no longer be obtained, I thought I give it a good try. But to come back to your question, I actually never ran the FDS before today, so I dont know what it says. I just scanned the Whitepaper from EA and installed it to make sure the license key works. So whatever it says there was preconfigured in the FDS package.

Happy licensing,

Max.
