Who cares? It's hilarious, and fitting to boot.

Look, you've got a motley crew of panderers, thieves, and liars over in BC.

Scrumfy uses people by pretending to be their friend, until they serve no use to him anymore. Then he goes "well I always hated you and I just wanted <insert item>" after he has what he wants.

Vloktboky, while a good person, seems to be under that same influence. Seeing as how he tried stealing the code for the Renegade-sends-IRC-kills (such as Aircraftkiller got Owned by the Obelisk of Light, or n00b214 killed n00b3912 with a Ramjet Rifle)-with-weapons-stated code that Blazer's been working on for the past five months, if not longer. He tried getting into Black Hand Studios in order to take that, and admitted to it.

That "louis" guy is an idiot. Anyone who can't even capitalize their own name, or alias, doesn't seem to hold much in the upstairs attic. Nevermind the fact that he can't make a coherent sentence if his life depended on it.

SS here likes to give out the hub IP address of the n00bstories IRC servers so it can be DDoS attacked.

Compared to all of that, "assrammers.org" is both hilarious and is honestly less sinister than the shit you BC people have pulled.
