AlkalineAwww... you can only ban by serial hash on Renguard .
no ip ban still? plz... think of the people not wanting to use RG, but only brenbot....

Anyway, a new version is always cool and thnx u 2 guys are great.
ok, next version focus: GSA/ASE broadcasting for WOL Servers, yaeah, would be cool,
Ip banning = cool too...

add paypal donation box guyz.

1.34 was just a maintanenace release that had to be released ASAP.. doesn't contain much other
than fixes..
