AlkalineK9TrooperAlkalineEveryone, ya sure.

You monkeys at the zoo can keep laughing, it only entertains me

And your "mastery" of the English language is entertaining us.

woa really, I was thinking you were entertained enough with your gay firemen: "Ohhh look FIRE!!!"

Where? "In K9's pants"

:rolleyes:

What? You couldn't argue the fact that you are a n00b? Say what you want.

Just when I think that you couldn't go any deeper in the pit of n00bness, you grab a shovel and dig deeper... Keep digging. You'll hit China sooner or later.
