Complex is basically done.

Has a texture problem in one area, and the lighting is a bit dark, so when thats done.....it will be done. Someone still needs to teach me about weapon boning.

i have the PP7, PP7_S, DD44, Military Lazer, RCP-90
and no boning.

they call it complex for a reason, this thing is a bitch, but it surprised me alot. I need to make another version which has all the added rooms and such. They form naturally, just no doors.
