I can't remember what most of the guns in goldeneye are but I can tell you that the PP7 is the Walter PPK (possibly the Walter PP9i that was used in later Bond films/games but prob PPK), AR53 is the M16 and the RCP90 is the Fabrique National P90. Hope this helps for your models. If some-one can direct me to a list of the guns in Goldeneye with images I could probably tell you what most of the real life counter-parts are.
