Perhaps someone can test Create_Sound, Create_2D_Sound, Create_2D_WAV_Sound, Create_3D_WAV_Sound_At_Bone, Create_3D_Sound_At_Bone & Create_Logical_Sound to see which, if any, of those commands work in MP.

Also, perhaps someone can test some of the WW scripts in addition to mine (some of the WW scripts might work)

Anyhow, I want to know if any of this stuff works.
