Nope.. I dont have FW.

And now i just tried to get Rg working with 1.00 and then it SHOULD automaticly download 1.01 , but it doesnt or how long do i need to wait, huh? and with 1.01 i get that same msg again

and if wonder.. Its finnish

AppName: game.exe AppVer: 0.0.0.0 ModName: ntdll.dll
ModVer: 5.1.2600.1217 Offset: 0003381b

Thats the problem..

Nothing happens ^^

erm... Now my 1.00 Rg works, but not 1.01
