Any building of iraq will go towards US corporations and some to UK.
so there is lots of money to be made. contracts have already been
signed.

The billions on contract to drill oil and rebuild oil refinerys and search for new oil went to russia
and france . but now after this war it will go to US corporations. Some of which are owned by
BUSH and CO.

You see there is Billions of \$\$ to be made. As well as controlling this oil rich region.
