havocsnipe Before the invasion of kuwait were the US told saddemm if he invades kuwait then it's his bussiness, But US attacked Iraq destroyoed iraq infrastructure and has been since 12 years bombing iraq on a daily basis.

Iraq has been bomed for 12 years nearly everyday by US war planes.

Do think saddam then will give the cantracts to the US.

Installtions thats interfered with our ability to safely patrol no fly zones and the like have been taking bombs from us for a long time now because they are in direct conflict with the stipulations laid down for Iraq to comply with.
