oy old posts ARE back i see, well the grenades rule ive found that out, the tib auto rifle does too, if u know how to use it, (fire at large groups in beggining of a game when the opposing team has alot of basic infantry, or fire at feet) flamers suck, except against basic infantry, rocket soilders good, though, in close quarters as well as against buildings, shoot at tanks and u will be dissappointed tho, maybe u could hit a mamm or arty at medium range, pics suck, the rav owns, aye i dont like mob and mendozas, but yes they rule
