havocsnipebesides the emty warheads are a threat to no one.

They were designed to fire chemical weapons. That fact that they exist is a threat.

havocsnipeCheck this out

The top National Security Council official in the war on terror resigned this week for what a NSC spokesman said were personal reasons, but intelligence sources say the move reflects concern that the looming war with Iraq is hurting the fight against terrorism.

<http://www.rense.com/general35/tearr.htm>

The arguement that the Iraq war is hurting the war on terrorism holds no water. One of the biggest leaders of Al-Qaeda was arrested even with the looming war.
