Warrior Nation is one of the largest and most professional and well organised clans around. We have a 100 man teamspeak server, Ventrillo server, Radio Station....

We of course support CnC Renegade - around 30 members. Always looking for both competitive and casual gamers.

The clan as a whole is mainly American based, but our CnC Renegade sction is mainly Euro based.

Post here with ingame name and contact details and we'll see about a try-out.
