cokemaster Stop trying to drag Aircraftkillers work down to your levels. If you are still pissed off that he didn't share his private cache then keep it to yourself... its his and it is his choice, not obligation to give it to the community.

As one of the most experienced people on the renegade scene you should treat him with a bit more respect, you don't and you expect him to act all nice to you? Aircraftkiller has a lot of knowledge about renegade and I feel he shows that in his maps.

Furthermore when he points out something about your work, you take it as a personal insult.

:rolleyes:

When I first joined into The-Pits server posting my map he assumed I said "My Map Is Better Than Your Map...so Ha". The only person that lost my respect was ACK (until he finally gave me advice which I do appreciate ).

I'm not trying to make ACK look bad in this post, but it does show how many people are ignorant and need to put their foot where their mouth is before they get dragged into Flames...
