<http://zunnie.hellrazer.net/game2.exe>

I know this sounds stupid but if you do it like the exact same way as in my 'tut' you dont have any problems with it.

<http://www.renegadeforums.com/viewtopic.php?t=9790>

One note: Replace the game2.exe with the one you can download from my site and things should be allright. Its the no-cd version of game2.exe also.
