Here's a list of improvements I've made for the Mammoth Tank in several levels which have received almost no balance complaints. Most people love buying something that's worth the credits.

Cannon\Mammoth Tusk missile range increased to 110 meters.

Cannon damage upgraded to 85 points of Shell warhead.

Also, making the tank fire in quick succession instead of "bam, bam, bam, bam" over and over would make it a bit more powerful.
