I figured I would get a lot of 'your spamming!' reactions if I made a nother post... so Il just bumb this one.

And BTW, for a site to be succesfull it doesnt have to have a .com adres. Where the hell did you get that idea? A site can't be succesfull over a days time. Il get myself a .com adres as we grow becouse I dont want to trow away my money!

Other than that, you could at least visit and take a look. Instead of drilling me into the ground without even having seen it.
