I love it....DOWN WITH ICRACK!!!!

Saddam is Sh!tin bricks!!!!

Hopefully they take him alive, maybe feed him some anthrax or whatever he released to his people back in like 1988....

We are gunna kick his hairy a\$\$.....

w00t for American Barbarity!!

Hopefully we take him alive, not kill him, but forced to live in a U.S prison isolated from the rest of the world the rest of his life.

Killing him is to nice. He would be getting out of it the way to easy way.

If we don't kill him during the war, but make him a prisoner, every terrorist will use his captivity a cause. If he is dead the marty(sp) cause would be short lived.
