I have edited the HEX coding in the game.exe on my racing conversion and haven't seen a change.

I also have changed the HEX in leveleditor, but still no change

(I changed to 700 = 00 00 2f 44)

I also tried 9999 = 00 3c 1c 46

But again, not changed.

And yes, I did remember to save

Any help on what I have done wrong?
