The mayan's predicted their own downfall to the exact day (so my dad and the discovery channels says) and also the fall of Babylon, Roman and Inca empires...predicted both world wars and something else of "great importance" but i forget.....OMG NO NO WE ARE ALL GOING TO DIE!!!!!!!!!!

oh wait we are gonna die anyway.....

As for the God and Jesus stuff....If your religion or lack of gives you strength in times of depression and hope in times of darkness, then power to you.....just dont try to shove it down the throats of others who have their own minds or opinions made in that area.....

Last but not least....if the bible is the word of god before all time, and states that he made the world in 6 days, rested on the 7th and the first 2 creatures he created were Man (adam) and woman (eve) and yet we have proven dinosaurs came before man or woman, why are they not mentioned in the bible?

Im not saying im a believer and im not saying im a doubter im just saying PROVE IT!
