cowmisfitwho cares? If thats when we die we die no way we can help it no need in worrying about it. Anyone who sits around studding that crap needs a new hobbie, its only going to make you parinoid, worried for the rest of your life because you always studing the biggeset event that will ever happen, the end of man kind.

Just my opinion though

I agree, Thinking of this shit doesn't make any sense, If we're going to die, then there is nothing to do about it. So just live a life and don't think about death.
