I would like to know if its possible for you guys to change the color of the private pages.

At this moment the color is dark blue. This sux because the background is gray (actually its black/transparent) ... So the messages are almost not visible.

It would be cool if you guys could change it into light blue.

(Thanks in advance for the replies...)

- Rex

BTW: I did not ask something n00bish. I didn't talk like a n00b either, so I DON'T want people to answer like: "OMG!!! STUP1D QUESTION!! ITS NTO POSIBLE!1!1!!"
