.fr0zenPhoenix - AeonOn the subject of the electiobs, Kerry may be a dictator but at least he isn't a despot (Bush).

lol how can u say bush is "despot" when you can't even spell it correct

des·pot

n.

1. A ruler with absolute power.
2. A person who wields power oppressively; a tyrant.

What did you think he was trying to spell?
