All are AI maps with bots like in Multiplayer practice for use with Renegade Skirmish

http://www.thecodesmith.com/download/RenWOLstatus_v1.3.zip -- WOL Status by npsmith82

http://www.fanmaps.net/brenbot/snipesimo/pagereply.mrc -- Page reply script for server moderators, allows you to just type /r message instead of !page wolname message. Works for both BRenBot and BlazeRegulator .Net.

Installation: download the file to your mIRC directory then open mIRC and type /load -rs pagereply.mrc then whenever someone pages a server and you wish to respond to that person, all you have to type is /r message.

http://www.fanmaps.net/brenbot/snipesimo/wolstats.mrc -- !wolstats script, uses renevo.com to work. Provides a wealth of information.

Installation: Place in your mIRC directory then load mIRC and type /load -rs wolstats.mrc

[+defaulrt]: !wolstats iamquest
[%[EoE]snipesimo]: iamquest is ranked 218 of 4503 players
[%[EoE]snipesimo]: iamquest has fired 2219666 shots, 3711 of which were in the crotch. iamquest took 4678 shots to the crotch while killing 24776 enimies. iamquest destroyed 535 buildings, and 3558 vehicles. iamquest ran over someone 2167 times, and was run over 4885 times. iamquest shot 23557 people in the head, and was headshotted 22477 times. 3222664 spent on WOL.

http://www.nextgenerationsnipers.com/downloads/RenMonitor.zip -- RenMontior, an mIRC scipt that provides a GUI to moderate BR .Net servers with.
