Ouch, I had that happen to me once, well... actually it blew up when I turned it on.

Quote:the movie will blow FFTSW away  
Of course it will, TSW wasn't even Final Fantasy, not a single Chocobo in the entire film, or summons', ultima, no-one called cid... I could go on for quite a while here. Oh btw, you'll find out it's virtually impossible to not start a flame war round these parts, Still, it's nice to know that there are some members who want to be civil.
