Subject: Programmer Needed
Posted by gibberish on Wed, 12 May 2004 18:45:38 GMT

dead6reI just need a programmer for the communtcaions

I really wish you hadn't use the word "Just".

There are probably less than 10 people world wide who have written "Serious" regulators for Renegade. Several of those are not publicly released. You are really looking for a specialized skill set here.

Additionally you are looking for someone willing to spend a lot of time, regulators are not simple beasts.

Given what you want to do your best bet would be to be extremely nice to Blazer/Dante.

Gib
