mrpirateQuote:and only lose out on body shots to infantry, where they do 40 less damage (40, and not 50, because rail/PIC have 10 points of burn damage on top of the 200 per shot they do to infantry.).

The Railgun and PIC do 210 damage with a body shot (with burn damage). The Ramjet does 200.

Sorry, posted that way too late in the evening.
