US: Our helicopters do NOT get shot down! They crash. Mechanical problems. Pilot error. Weather. But they are NOT being shot down! Everyone KNOWS the Iraqi can't fight a war, they're pussies! They... what? Oh, yeah, right, Forgot that.

Everyone knows Iraq is a deadly danger to the US and they have weapons of mass destruction and kill puppy dogs and steal incubators and tear the tags off of their seat cushions and fart in elevators and that's why we are fighting this holy crusade. But, I repeat, our helicopters do NOT get shot down!
