Remove the: , (komma) at the end.

But thats not the Problem, there was a fault in the php files, redownalod the file.

Thank you for the help and also for helping me customize the css...

This is a very good skript you should try it because it is free and so easy to set up...

Thanks again Laeubi. Check it out here:

My Upload Terminal << Username = cncdailyadmin Pass = \*\*\*\*

Sorry can't let you upload i am using it as a POTW skript.
