Ya we just had a survivor of sept 11th talk at my school. He said he wasnt sure about this war until he ehard bush say "lets fight it with out soldiers, our marines or navy and our airforxe, instead of later with our police and firemen." He also said he hopes we kick Saddams ass. People do really need to realize that no matter how out of the blue this is it is still abetetr thing to get Saddam out.
