I would never take full credit. I would have to add your name to the credits.

Refinery? Oh! yeah that place where the dirt shows through.

Yeah ill get those files together.

You can get the chronoshpere to work? did you jump into the spinny things in the basement?

I would love to redo that too, but they already have the chronoshpere, so no need really.

I made that long ago, i can do much better stuff now.
