bigejoe14One way it can get into your computer...

Dante the most popular way thus far was from a quicktime update that people got to watch teh hl2 video...

Shit I have that file but my Quicktime didn't update when I watched it...Am I okay? I didn't find

Quote:2 htm files one called fe43e701.htm

Is there any other way to tell...?

I don't have any tasks running that you mentioned to shut down either.
