KholdstareYes, after every one of them encountered connection problems. Don't try to cover that up. Im not in the mood for your or any other BC bullshit. Ive made a point to stay out of this little fued untill last night. Keep it private because I won't hesitate to do it again. As stated before ANY more flooding will be dealt with in the same manner.

KEEP IT OFF WOL.

-Khold

I think I'll throw a few up on my Servermatrix... we'll see how Theplanet deals with it.
