here's an idea: GAMESPY IS A PIECE OF SHIT.

I put up with it for two years before i finally had enough of stupid ads that you can't exit out of, and their crappy control-freakedness.
their articles suck ass too.

dudes, get All Seeing Eye.

it ownz everything. Trust me.

(while i don't promote using cracks, etc., let's just say that they are out there for ASE and we'll leave it at that :twisted:)
