Hmm.. you seem to be using wild style.. maybe try industrial style.. would suit this piece a bit better.

I don't like the word under word under word.. Maybe try put 2 words next to each other and when you go on to the next line start the writing more over to the right. so you indent more and more every line you make.

Colours i think a blue/white/grey/silver with small thin dark gray outlines.

Are you using Pens are Cans?
