Well assuming he isnt flat out lying he is either Joseph Black or Eric Kearns.

Of course the last statement refers to joseph black which means he would be eric kearns unless he is STILL refering to himself in the third person in which case he would be joseph black but he already condricted himself earlier because if he was reffering to himself in the third person he would not have said "Why am I talking in the third person"

Hmmmm

FFS I think he is eric kearns. everyone probably figured it out already though.
