WhitedragonSk8rRIMukNow thats the kinda company i wan't to work in ...  
No Wonder server kept crashing they banged there elbow on WOL .

-Sk8rRIMuk

That isnt WOL, thats the server that hosted westwood.com. The WOL servers at that time were located in Irvine CA, someone correct me if im wrong.

You're wrong. Those are the WOL servers, as well as the bulk of the westwood.com domain. At least before we moved them up to the San Jose Co-Lo a couple weeks ago.
