## Subject: Ladder for LFDS?
Posted by dead6re on Wed, 26 May 2004 12:03:32 GMT

dead6reFine, i will look in mirc and see if i can make a ladder in any way, most likly it will have to some how connect to mysql or another type of database.

Should be easy, i know lots of mirc and mysql and php. Ill have a looky!

Found a problem, u will need a windows machine for it. I have the dll that will connect to mysql but i am looking at other options for databases.
