Xtrm2MattI'm not trying to stir up shit again, so sorry if this offends anyone, but however you may feel about BC now, they may also be seeking revenge from xptek's stunts. Watch out, all i'm saying. Sorry if my.. "comment" will stir shit up about things, so yeah sorry in advanced..

Apparently someone neglected to read the agreement...

6. Clear up anything about the leaking of DA/DS.

- BC acknowledges that BHS had no prior knowledge or involvement in the theft of the code. BHS apologizes for certain members' making fun of the incident.

xptek is banned, the leak is capped, who else would we want revenge against? We don't play around like xptek, we're not about to join so we can steal renguard or something...get over it.
