Ok, It stoped working soon after i 'belived' I removed the blaster virus from my computer (could have been and other virus) soon after i compleatly deleted my harddrive and installed a new operating system. XP Pro Edition. I don think it could be the virus or a new one dude to me getting nortin anti virus and fire wall right after installing pro. Im really stumped on this one. Also if posible could any one find me a new driver for my modem. It could help who knows.. it is a Conexant-Ambit Softk56 data,fax ich modem, curently using driver version 3.5.42.0 dated at 12/6/2001 provider being CNXT. Thanks in advance.
