spoonyratWow, you don't even know how to ban someone.

um.... i'm in FUD.... and you think i DON'T know how to ban? ROFLMAO

also, i don't see any evidence that those screenshots are from MY server. i also see nothing that shows that those shots were taken AFTER i banned you.

the simple fact of the matter is that you are banned from my server and therefore could not have played there with the same nick & IP.

another thing -- that guy in your screenies is named "N00B1US", not "N00b1rus". i thought you were talking about a game against "N00b1rus", but then you posted screenies with a different guy in them. come on, fool; get your story straight.
