Which sniper would you pick given a choice, Sakura or Black hand? Sakura's shots pack more power, but the black hand has a higher fire rate. I would choose a black hand. I dont like giving away points when i die, which happens, but not often . I also like it beacuse the more experienced snipers pick black hands because they use more head shots than body shots. when you kill a black hand, you get 49 points as opposed to the 99 you get when you kill a sakura.
