Just...a beta. Basic chickens are down. Each team has 4 AI to help them out. You start off surrounded by rocks, and an invisible PT on the rock, you should be able to target it. Go in, and buy the "Mini Machine Gunner" (slot number 1). Whohoo, now your a chicken. Now walk out the small whole under the box. Than go out and fight amonst the chickens.

Suggestions+bugs go to [kidrage11@attbi.com](mailto:kidrage11@attbi.com)
