mahkraEXdeath7NodbuggerBeing retarded doesn't help much either,

I have destroyed mammoth tanks with the pistol It took about 15 min. But I did kill it.

Total bullshit unless you were on a multiplayer practice by yourself and was shooting an open mammy....

actually this is complete and utter BS under any circumstances (with the latest version of the game, at least. i don't know how things worked before the game was patched.)

a mammy (even an empty one) will heal itself faster than a pistol can hurt it. it is IMPOSSIBLE to kill a mammoth tank with a pistol. no it isn't others have done it also.
