If you should get medal, then I should get medal too, because I played this game for like 2 years, and if I ever got 20 FPS, I would have to be a VERY lucky son of a bltch. My average FPS is, and almost allways was like 8 or less.

Anyway, what causes Lagg more?

- 1.Slow computer,
 - 2.Sucki video card,
 - 3.Low RAM, or
 - 4.slow connection?
