AprimeHavocman, if you want personal bullshit , just ask for it.

Other then that, you shut the fuck up cheater *mr is using trainers for Gen...Oh and he had the warez version of the beta test! I swear*

Oh and crimson, I thought he was doing the right things after 9.11, but now, I dunno...He kinda destroyed the UN, I know the UN isn't really helping in peacekeeping *depends, their army is peacekeeping in africa and in other contries like Canada...

UN should've said : Saddam, you have 2 choices, you disarm and get out of Iraq, or US will have the right to bomb you.

Funny, The UN Peace Keeping Forces are 65% US. We risk more lives for the UN then any other member. Yet when it comes time to help the US most run and hide.
