Subject: Should the maps we are making available be optional or not?

All those maps together can't possibly amount to less than 20 megs...

I think it all just comes down to how much that needs to be downloaded. Like npsmith said, 20 megs seems reasonable. 30 pushes it, but I'm up for integrated maps within the patches. Best way imo to get maps to the players.

And edit: this should be on the general forum.
