The United States has shifted so far to the right in it's national discourse that even moderate Democrats are brandished as left-wing-radicals.

There is no more intelligent debate in this country. Either you're with GW Bush, or you're against him. And if you're against him, you're an unpatriotic terrorist-sympathizer. :rolleyes:

I don't like Kerry much, but just about ANYTHING is better than GW. Holy Shit, can an American President do MORE damage to enviromental law? Social welfare? International relations? Corporate accountability? the National Deficit? etc, etc, etc.

Gizbotvas's Cat for President! Cause anything is better than what we've got now.
