Yep, there's about 50mb worth but most of it isn't lengthy music like this or otherwise not worth listening to unless you're playing the game at the same time.

Here's another thing though, you can use it in place of the default renegade music if you convert it to mp3 format and put it in your renegade\data dir. Renegade knows how to loop properly so you don't have to worry about that. It's the music it plays when you install the game,
