Renardin6Nice effect... I don't remember a such graphic aspect on Red Alert... So it's a mod based on Red Alert. Not a Red Alert copy.

You should stop and think about what you're posting before you hit the submit button. Of course this effect wasn't in Red Alert, it's an 7-8 year old 2d game. (Btw, if you'd actually play Red Alert you'd notice that the MAD tank effect is very similar to this effect.)

OMG! RenAlert is including 3d models, but red alert wasn't 3d!!1
